CENR Officer
Brgy. III, Roxas, Palawan

Dear CENRO,

Isang magandang araw po!

Ito po ay may kaugnayan sa memorandum na may petsang ika-15 ng Mayo taong 2023 tungkol sa mga dapat na i-comply na dukuminto sa aming application sa Rattan Cutting Contract (RCC).

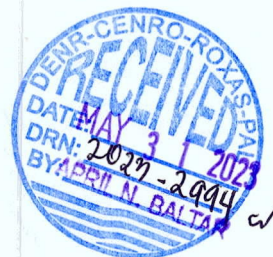

Amin pong isusumite sa inyong opisina ang mga kailangang dokumento sa pag-proseso at pag-apruba ng aming nasabing aplikasyon:

1. Proof of available capital in the amount of 50, 000 pesos,
2. Certified true copy of ECAN Zoning Certification Application No. RX-EZC-22-09-28-01,
3. Sworn statement authorizing DENR representative/s to verify submitted information,
4. Revised Rattan Cutting and Replanting Plan of SPKCT.

Umaasa po kami na ang aming aplikasyon ay mabigyan ng kaukolang konsiderasyon at approval.

Gumagalang,

HERNANIE H. DADORES
SPKCT Representative

PALAWAN COUNCIL FOR SUSTAINABLE DEVELOPMENT STAFF

ECAN ZONING CERTIFICATION

APPLICATION NO. RX-EZC-22-09-28-01

PROPOSED PROJECT/ACTIVITY DESCRIPTION:

Name of Proposed Project: Rattan Cutting Contract/Permit
Name of Proponent: Samahang Pangkaunlaran ng mga Katutubong Cuyunon at Tagbanua (SPKTC) represented by Mr. Hernanie Dadores
Location of Proposed Project: Brgys. Antonino, Taradungan, Bagong Bayan, & Dumarao, Roxas, Palawan (see Annex "A")
Description of Proposed Project: The project is the harvesting of rattan within a proposed area of 21,337.933 hectares (see Annex "B"). However, the allowable area is only 12,304.7978 hectares.

CERTIFICATION

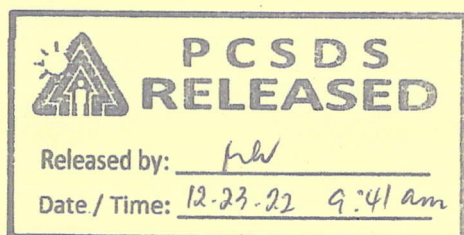

This is to certify that based on the evaluation of the submitted requirements for Ecan Zoning Certification, the following are found:

1. The Location Map, as overlaid in the approved Ecan Map for the Municipality of Roxas, Palawan, shows that the proposed project/activity is within the Terrestrial Core Zone (non-allowable area), Restricted-Use Zone (non-allowable area), Controlled-Use zone, Traditional-Use zone, and Multiple-Use zone;
2. The Certification from the DENR-CENRO Roxas, Palawan stating that the applied area falls within timberland and alienable and disposable land shows that the project proponent may apply for the use thereof; and
3. The Project Proposal/Description shows that the project is under Category "C" as listed in PCSD Resolution No. 17-579, s. 2017, amending PCSD Administrative Order No. 06.

This is to certify further, that based on the above findings, the proposed project/activity is a Category "C" project, which requires no further evaluation and exempts the proponent from securing a SEP Clearance, however, subject to the Terms and Conditions found at the back of this document.

This Certification is not conclusive as to the absolute right/claim of the proponent over the area applied for but is merely issued as to the categorization of the project and determination of allowable activities in the Ecan zones for purposes of applying the provisions of R.A. 7611 (SEP Law) and PCSD Administrative Order No. 06, as amended.

Issued on DEC 23 2022

CERTIFICATION

This is to certify that **DENR CENRO Roxas representative/s** has been authorizing to verify submitted information of **Samahan Pangkaunlaran ng mga Katutubong Cuyunin at Tagbanua (SPKCT)** at new place of operation Barangay Antonio, Taradungan, Bagong Bayan and Dumarao, Roxas, Palawan.

The pertains to the application of SPKCT Inc. for Rattan Cutting Contract (RCC) at CENRO-Roxas, Palawan.

Subscribe and sworn to before me this 30th day of May 2023 at Brgy. Tumarbong, Roxas, Palawan.

HERNANIE H. DADORES
SPKCT Representative

**RATTAN CUTTING AND REPLANTING PLAN
OF
SAMAHAAN PANGKAUNLARAN NG MGA KATUTUBONG CUYUNON AT TAGBANUA
(SPKCT) represented by: Hernanie H. Dadores**

I. INTRODUCTION

The Rattan industry contributes to the nation's economic growth, especially in the employment of residents within the vicinity of the applied rattan license area, in generating income and foreign exchange. The business will remain profitable, providing a sustainable supply of raw materials. To achieve this goal, there is a need to regulate the harvesting of rattan, augmented by the establishment of rattan plantations.

This rattan cutting and replanting plan were prepared under existing Forestry Laws, Rules, and Regulations. This will serve as a tool in the operation of the area, considering sustainable forest management strategies.

II. BASIC INFORMATION

Name of Project	: Samahan pangkaunlaran ng mga Katutubong Cuyunon at Tagbanua (SPKCT)
Name of Proponent	: Hernanie H. Dadores
Location	: Barangays of Antonino, Taradungan and Dumarao, Roxas, Palawan
Approximate Area	: 12,304.7978 hectares

III. OBJECTIVES

1. To ensure the sustainable productivity of rattan resources;
2. To generate employment for local residents;
3. To support the need of the raw materials for our rattan industry;
4. To help in enhancing economic growth

IV. OPERATION PLAN

A. CUTTING / GATHERING OF RATTAN POLES

Considering the applied area is 12,304.7978 hectares, and the tenure of the contract is ten (10) years, the annual cutting operations shall be confined to a maximum of 1,770.77 hectares annually. This area shall be identified and blocked into four (4), to be operated every quarter.

The cutting of rattan poles shall be limited to the annual allowable cut. Gatherers/cutters shall be advised to fully adhere to DENR laws, rules, and regulations. Only mature rattan poles shall be cut/collected/gathered, leaving behind reproduction vines.

B. PROCESSING OF GREEN RATTAN POLES

After trimming the freshly cut rattan pole into their desired lengths, they will to be sold to Calamus Poles and Wickers Inc. for the further processing plant at Brgy. Sandoval, Roxas, Palawan while awaiting shipment.

After manifestation, the regular Forest Charges due shall be paid before moving the gathered rattan from the licensed area. The required transport documents will be secured from CENRO, to accompany their transport to their destination.

C. MARKETING

The gathered rattan (green) poles will be sold to legitimate dealers and manufacturers of rattan products located within Metro Manila and other nearby provinces and cities.

Upon manifestation, the Regular Forest Charges that are due shall be paid before moving the gathered rattan from within the licensed area. The required transport documents will be secured from CENRO, to accompany their transport to their destinations.

D. FOREST PROTECTION

Protection of the proposed license area shall also be our concern, including its adjacent areas. Our employed rattan gatherers shall also act as concession guards, as they are already in the area. Any violation of forestry law detected at the area and its adjacent locations shall be immediately reported to the nearest Forest Station or CENR Office.

V. RATTAN PLANTATION ESTABLISHMENT

1. IDENTIFICATION OF SITE

The plantation site will be within the area that had previously been operated. The number of seedlings to be planted shall be equivalent to the number of poles harvested. Assuming that the Annual Allowable Cut at meters and the length of one (1) harvested pole is 25 linear meters, the number of seedlings to be planted in every hectare, is 625 seedlings. Therefore, the plantation area to be established shall be 12,304.7978 hectares per annum.

2. NURSERY ESTABLISHMENT

The nursery will be established near the plantation site and near the source of water. Planting materials are being raised continuously in the nursery until they are ready to be planted.

Manpower that maybe available at the area will be hired to undertake the necessary activities, to be done in close coordination with the DENR-CENRO, Roxas, Palawan.

Rattan seedlings shall be potted in plastic bags and be placed under a shed for recovery / hardening and to protect them from intense heat. Hardening the planting stocks may take about 3 months, exposing them gradually to sunlight before finally out-planting them on the field.

3. PLANTATION ESTABLISHMENT

a. Site Preparation

Plantation site will be prepared by adopting the strip-planting method, removing the vines, grasses and shrubs that may compete with the planted rattan at their early stage at the plantation area. Strictly, there will be no cutting of trees and other woody vegetations because they will support the planted rattan in their survival as vines in the forest.

b. Spacing and staking

The distances of planting spots for rattan plantation shall be 4 meters by 4 meters. Holes shall be dug 5 meters or not lesser 1 meter away from the base of existing trees. Stakes must be at least 1 to 2 yards, as they serve as guide to brushes in subsequent brushing, ring weeding and replanting.

c. Hauling of seedlings

Seedlings are to be hauled from the nursery to the plantation site by means of sleds pulled by carabaos. Then they shall be manually distributed each to the prepared holes. Hauling should be done cautiously, so as not to damage the fragile stems and roots of the planting stocks.

d. Out Planting

Planting of rattan must be carried out during the rainy season, preferably not later than during the months of July and August. The potting materials shall be removed before the planting them in the prepared holes.

4. PLANTATION MAINTENANCE

a. Weeding

The first weeding pass must be done not more than 3 months after planting and the subsequent replanting passes shall be done simultaneously with the weeding schedule until the second year.

b. Replanting

The activity shall be done in three (3) passes, the first replanting must be done together with the first weeding schedule and the subsequent replanting passes shall be done simultaneously with the weeding schedule until the second year.

c. Fertilization

Initial fertilization shall be done simultaneously with out-planting. Succeeding fertilization shall likewise be undertaken once a year for three (3) years.

d. Planting Protection

Establishment of fire break and fire protection measures are (10) meters wide fire necessary in the maintenance of the plantation. A ten line shall be constructed at the perimeter of the established plantation

5. BUDGETARY REQUIREMENTS

The cost estimate for the establishment of one (1) hectare rattan plantation is Php 3,950.00.

Seedlings Production	P48, 000. 00
Site Preparation	3, 840. 00
Plantation Establishment	24, 000. 00
	P75, 840.00

The budgetary requirement for the establishment of 12,304.7978 hectares of rattan plantation is Php. 75, 840. 00.
