MEMORANDUM

FOR : The Regional Executive Director
MIMAROPA Regional

FROM : The OIC-PENRO
Oriental Mindoro

SUBJECT : **UPDATE ON THE INSTALLATION OF CYBERTRACKER ON
THE NEW LAWIN GADGETS**

Forwarded is the report of CENRO Socorro regarding the above-cited subject.

Please be informed that the newly purchased gadgets (Blackview BV6600) for Lawin Forest and Biodiversity Protection System does not work for installation of Cybertracker application for patrolling. However, CENRO Socorro is currently finding new ways to install the said application for it to work in the newly purchased gadgets.

For information and record.

Respectfully forwarding the report of the Lawin Data Manager concerning the abovementioned subject.

Please be informed that the Cybertracker application does not work in the new Lawin gadgets that were given during the training. We tried several times to make the application work on the new devices but unsuccessful. Our observation is that the gadgets' software does not support the older version of Cybertracker application.

Relative thereto, may we instead request for a latest version of Cybertracker application that is compatible with the new gadgets, and assist us in the installation of such.

For information, consideration and record.

MEMORANDUM

FOR : The CENR Officer

THRU : The Chief, MES
The Unit Head, Enforcement Unit

FROM : The Lawin Data Manager

SUBJECT : **UPDATE ON THE INSTALLATION OF CYBERTRACKER ON THE NEW LAWIN GADGETS**

This pertains to the previously distributed Lawin Gadgets from Forest Management Bureau (FMB) wherein CENRO Socorro received five (5) units. To date, one (1) unit was directly given to Forest Ranger Adrean Castillo during the seminar. The three (3) units were transferred to Forest Rangers Rhona Liwag, Arnaldo Pudiquet and Norman Asi upon instruction from MES Chief and Enforcement Unit Head. The last one (1) is still available for transfer and under the care of the undersigned. The only working gadget being used during patrolling was one (1) official tablet of south sector and one (1) personal phone of the north sector. Also, we still need 129.54 kilometers to reach the 150-km target for the quarter.

Please be informed that the undersigned tried to install the cybertracker application to the new gadgets but no luck was made since the application keeps stopping and automatically close with the error message saying that the application was built for older version. Further, the following were the trials done to make the application work:

- Install in usual way using the Lawin system in laptop;
- Install using the .apk file generated from the Lawin system in laptop;
- Install using the working cybertracker from San Jose and got help from their data manager;
- Install using the application from the playstore;
- Install using possible combinations of the abovesited ways.

Relative thereto, the undersigned already raised the concern to the group chat but still no response. With this, may we request for the updated copy of cybertracker application that will work with the new phones or assistance in installation to make the application work.

For information and further instruction, if any.

ADRIAN V. CATUD
