**MEMORANDUM**

**FOR :** The Regional Executive Director  
DENR MIMAROPA Region  
1515 DENR By the Bay Building, Roxas Boulevard,  
Barangay 668, Ermita, Manila

**THRU :** The OIC, ARD for Technical Services

**FROM :** The Provincial Environment and  
Natural Resources Officer

**SUBJECT :** SUBMISSION OF ACCOMPLISHMENT REPORT OF LAWIN  
FOREST AND BIODIVERSITY MONITORING SYSTEM OF  
CENRO QUEZON, PALAWAN AS OF FEBRUARY 20, 2023

Respectfully forwarded is the memorandum of CENRO Quezon, Palawan dated February 21, 2023 relative the above subject.

As reported, a total of 49.17 kilometers distance were patrolled as of February 20, 2023. In addition, some patrol id's and tracks were subject for deletion due to invalid patrol, outside the conservation area and outside the area of jurisdiction of CENRO Quezon. (*Please refer to the attached matrix of the report*)

For information and further instruction.

## Summary Patrol Report

### Region 04B - Quezon

Number of days analyzed: 50

21 Feb 2023 1:30 PM

This report presents the patrol performance and quality of the implementing unit during the above stated period of time (number of days). The report contains information on accomplishment rate, coverage and intensity of patrolling in different forest types on patrol distance covered per patroller. The information is meant to provide a basis for patrol planning for the next planning period and implementation of adaptive measures to enhance patrolling as necessary.

#### Overall accomplishment rate\*

Accomplishment\*  
for the period

49.17

Target\* distance for  
the period

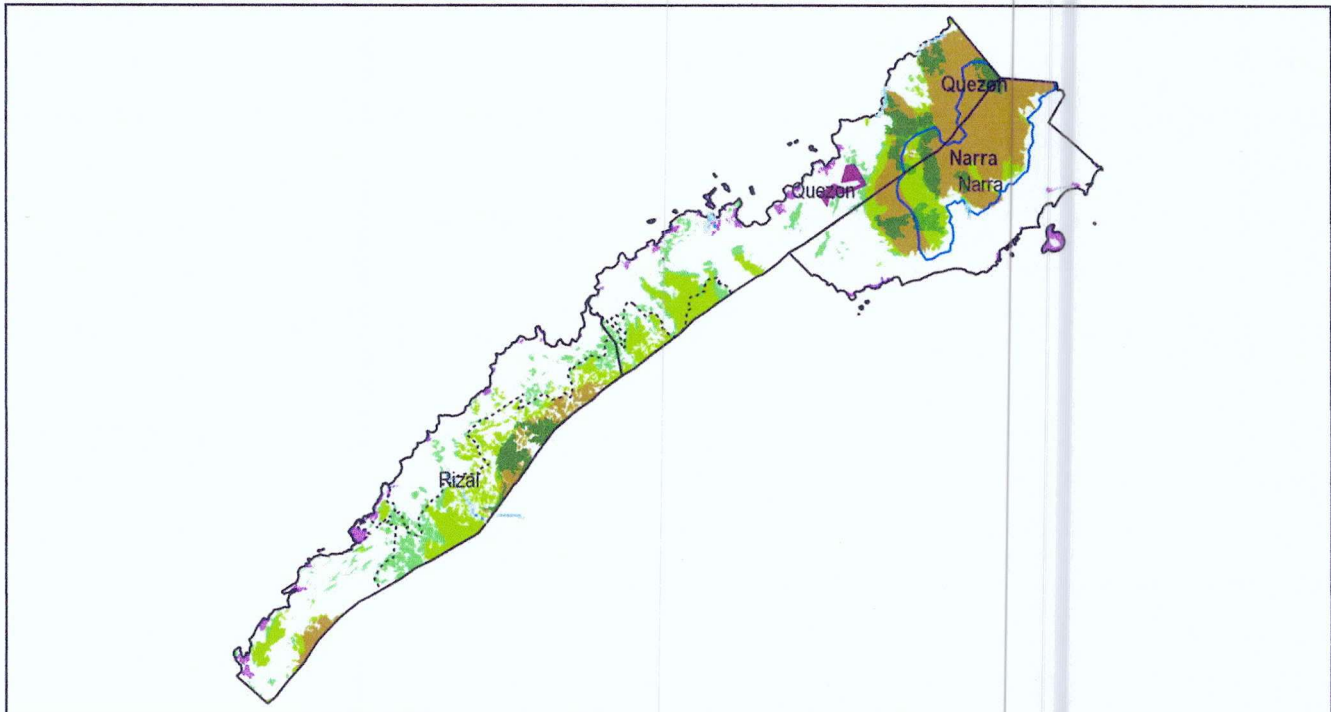

196.00

Accomplishment Rate:

25.09%

\*Target is computed based on 10km target per team of 4 DENR patrollers per month

#### Patrol coverage and intensity

Republic of the Philippines  
Department of Environment and Natural Resources  
**Lawin Forest and Biodiversity Protection System**

---

Patrol distance covered by each forest ranger

Forest Ranger	Patrol Distance Accomplished
Jeremy Valdeztamon	47.29
John Marcelo Dayola	47.29
Armando Batayo	44.82
Avel Rodriguez	42.93
Michael Joven	32.98
Sanie Alcantara	32.98
Esmael Sonon Jr.	31.92
Juvy Tabaque	28.62
Saldo Tumanong	28.62
Jesse Cascara	22.60
Edgar Panizales	16.98

## Summary Response Report

### Region 04B - Quezon

Number of days analyzed: 50 21 Feb 2023 1:31 PM

This report presents the response performance and quality of the implementing unit during the above stated period of time (number of days). The report contains information on threats requiring responses, status of threats and types of responses per threat. The information is meant to provide a basis for response tracking and planning for the next planning period and implementation of adaptive measures to enhance responses to threats as necessary.

### Number of threats observed:

2

### Distribution of level of response required to address observed threats:

Immediate action required	Requires action within a week	Requires action within a month	No further action required
2			

### Number of threats requiring post-patrol responses:

### Status of threats

No action yet	Requires further action	Addressed	Invalid observation

Republic of the Philippines

Department of Environment and Natural Resources

**Lawin Forest and Biodiversity Protection System**

**Responses per threat**

Threat	Admin. proceedings	Coordination with LGU	Devt. project	Education	Garbage cleanup	Inv. sp. removal	Prosecution	Policy formulation	Wildlife rescue
--------	-----------------------	--------------------------	---------------	-----------	--------------------	---------------------	-------------	-----------------------	--------------------

## Forest Protection Effectiveness Report

### Region 04B - Quezon

Number of days analyzed: 50

21 Feb 2023 1:30 PM

This reports presents trends in observations of forest condition, regeneration, threats and indicator species. The combined presentation allows for an evaluation if protection efforts are effective, conservation targets are met and the forest achieves the desired future forest condition. Protection efforts are effective, when records of forest condition, regeneration and indicator species show an upward trend towards more observations more and denser regeneration, particularly in degraded forest areas. Increasing trends in indicator species suggest that the improved forest condition is providing a better habitat for forest dependent species. All trends presented are put in relation to the patrol effort to provide comparability. Forest cover data were derived from 2003 and 2010 NAMRIA land cover maps.

### Trends of Observations per Patrol Kilometer in the Forest Conservation Area

#### Trend in Threats

A decreasing trend in threats in the forest conservation area mean effective forest protection; an increasing trend means the opposite.

#### Trend in Indicator Species

An increasing trend in indicator species in the forest conservation area means effective forest protection; a decreasing trend means the opposite.

### Trends in Regeneration Density

An increasing trend in regeneration means effective forest protection; a decreasing trend means the opposite.

### Trends of most common Threats
