Dear BMB-DENR Director and FMB-DENR Director

I wish to know updates on the development of Arboretum in each Province that was initiated during the time of Secretary Mon. Page. The development of Arboretum was conceptualized by the late Dr. Antonio Manila as per instruction from Sec Page. I assisted Dr. Manila on this. The concept was to have a living collection of trees native to the Province and region.

I will be very much amazed to see a well developed Arboretum in each Province, since this will be the legacy of the DENR field offices that will be treasured by future generations.

It is unfortunate that the DENR field offices, accordingly, cannot give concern on the development of the Arboretum is because there is no available budget for such purpose. I am wondering why small amount cannot be given to the development of this Arboretum while DENR has spent and is still spending billions of pesos for its NGP and eNGP with little success.

For your information and action.

Thank you and God Bless,

Armando M. Palijon
Retired UP Professor
