MEMORANDUM

FOR : The Provincial Environment and
Natural Resources Officer
Sta. Monica, PPC, Palawan

FROM : The Community Environment and
Natural Resources Officer
Coron, Palawan

SUBJECT : REPORT ON THE CONDUCTED TREE PLANTING ACTIVITY
IN CELEBRATION OF WORLD WETLAND DAY CY 2023

Respectfully forwarding herewith is the activity report of Information Officer Nikki E. Ripalda regarding the abovementioned subject which also serves as the Means of Verification of this Office under Information, Education and Communication (IEC) Campaign.

Please be informed that this Office have conducted tree planting activity in Mabentangen Watershed at Poblation VI, Coron, Palawan on February 26, 2023 as a progressive approach to prevent its degrading status and in support to the celebration of this year World Wetland Day with theme: "Revive and Restore Degraded Wetlands".

A total of 100 seedlings of *Narra Pterocarpus indicus* were outplanted by 39 individuals from Barangay LGU of Poblation VI, Philippine National Police (PNP) Maritime, and DENR CENRO Coron personnel, composed of 17 feminine and 22 masculine.

Moreover, conduct of scientific research in Mabentangen Watershed such as carrying capacity, flora and assessment and other relevant studies for scientific baseline data; declaration of the area as core zone/protected area; consistent monitoring; and strictly implementation of ENR laws are recommended as progressive approach to the above-mentioned concern.

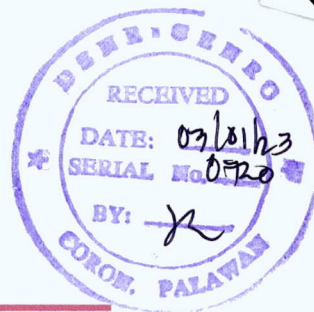

For information reference and record.

February 28, 2023

MEMORANDUM

FOR : The Community Environment and Natural Resources Officer
Coron, Palawan

FROM : Forest Technician I/Information Officer

SUBJECT : **WORLD WETLAND DAY CY 2023 CELEBRATION**

On 30 August 2021, the UN General Assembly proclaimed 2 February as World Wetlands Day to raise community awareness of wetlands to halt their rapid loss and encourage actions to conserve and restore such ecosystems which highlights the importance of wetland restoration, as well-restored wetlands which provide many of the ecosystem services.

Mabentangen Watershed is a water resource in Coron, Palawan that supports the water supply of the 7 barangays: Poblacion I, II, III, IV, V, and VI, as well as Tagumpay. Despite these vital services, anthropogenic threats such as timber poaching and increased demand for water supply as a result of population growth cause significant degradation of this ecosystem. Hence, an urgent call to take action and address this concern is needed to prevent and mitigate the continuous degradation of our resources.

To progressively address these issues and in support to this year celebration of World Wetland Day with theme: "*Revive and Restore Degraded Wetlands*" this office have conducted tree planting activity at Mabentangen Watershed, Brgy. Poblacion VI, Coron, Palawan on February 25, 2023.

A total of 100 seedlings of Narra *Pterocarpus indicus* were outplanted by 39 individuals from Barangay LGU of Poblacion VI, Philippine National Police (PNP) Maritime, and DENR CENRO Coron personnel, composed of 17 feminine and 22 masculine.

Moreover, conduct of scientific research in Mabentangen Watershed such as carrying capacity, flora and assessment and other relevant studies for scientific baseline data; declaration of the area as core zone/protected area; consistent monitoring; and strictly implementation of ENR laws are recommended as progressive approach to the above-mentioned concern.
