Sir:

Makakalikasang araw po sa inyo!

This is to reiterate our previous letter request dated February 7, 2023, regarding the conduct of re-inventory within the twenty (20) hectares of APMC's area of operation. The purpose of the said inventory is to validate the allegation of cutting trees without a permit. However, after several attempts to acquire a positive response on our request, the Inspection Team failed to enter your area of operation located in Sitio Bato, Brgy. España, San Fernando, Romblon.

In the exigency of service and to explicitly verify the said allegation, this office would like to request again to allow the Inspection Team to conduct the re-inventory of trees within the 20-hectare area.

Your immediate attention and action on this matter is highly valued.

Very truly yours,

ARNOLDO A. BLAZA, JR.
