MEMORANDUM

FOR : The CENRO
Roxas, Palawan

THRU : OIC Chief CDS

FROM : The Undersigned

SUBJECT : **MARINE TURTLE MONITORING IN BARANGAY
ALIMANGUAN, SAN VICENTE, PALAWAN**

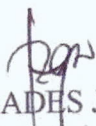

Please be informed that Conservation and Development Staff (CDS) went to Barangay Alimanguan, San Vicente, Palawan on January 5, 2023 to monitor the nesting activity of marine turtles in the Barangay. The Alimanguan Sagip Pawikan Association (ASP) has set up hatchery for turtle eggs that are reached by seawater during high tide. Only (1) one nest has hatched according to ASPA (separate marine turtle form will be submitted).

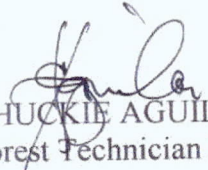

The CDS Staff also had a consultation with ASPA members regarding the proposed MOA of Large Marine Vertebrates Research Institute of the Philippines (LAMAVE) with ASP. The clauses in the MOA were reviewed including the date of effectivity of the MOA which is three (3) years but LAMAVE's Gratuitous Permit will end on May 2023. Another concern is the crediting of data, photos, and other information which will come out of the research. It was suggested that both parties should be credited in the publication or presentation if the data will come from ASP and covered in the effectivity of the GP. Another suggestion is to copy furnish DENR-BMB, CENRO-Roxas, PCSD, LGU San Vicente and MSPLS in the reports that will be generated from the research activity. The MOA was forwarded to PENRO-CDS and MSPSL-PAMO for further comment.

ASPA was advised to carefully review the MOA before signing and request changes in the MOA if needed. The PCSD and CENRO Roxas will meet with LAMAVE regarding their proposed activity on Marine Turtle Conservation in San Vicente, Palawan.

For information and record.
