FROM : The Chief, Enforcement and Monitoring Section (EMS)
CENRO Sablayan, Occidental Mindoro

SUBJECT : **148 PIECES OF BAKAWAN AND API-API SPECIES HAVING A TOTAL OF VOLUME OF 2,008.5 BD FT. AND TWO UNITS OF STIHL AND MAKUTE GC #100 CHAINSAW APPREHENDED AT SO. LAGUNDIAN, BRGY. BALANSAY. MAMBURAO, OCC. MINDORO**

This is in relation to your Memorandum dated January 18, 2023 directing us to submit a clarificatory report regarding the observed discrepancies as to the number/quantity and total volume of the forest products seized specified at the tally sheet compared to the seizure receipt of the subject apprehension.

The correct number/quantity of apprehended mangroves seized is what was provided in "ANNEX 4". It was different from the list provided in "ANNEX 5" because the office failed to seize and put into custody the full volume of apprehended forest products because of our lack of manpower and storage facility that will hold the said. The remaining forest products that are failed to seize were put under temporary custody of Barangay Balansay, Mamburao, Occidental Mindoro as stated on a Barangay blotter dated March 15, 2021.

Attached herewith is a copy of the above mentioned Barangay blotter and other relevant documents pertaining to the subject.

For your information and record.
