MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA Region
1515 DENR By the Bay Building, Roxas Boulevard,
Barangay 668, Ermita, Manila

THRU : The OIC, ARD for Technical Services

FROM : The Provincial Environment and
Natural Resources Officer

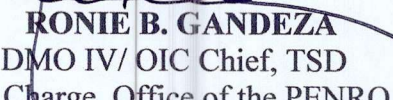

SUBJECT : **LAWIN FOREST AND BIODIVERSITY PROTECTION
SYSTEM ACCOMPLISHMENT REPORT OF CENRO
TAYTAY-EL NIDO FOR THE MONTH OF FEBRUARY 2023**

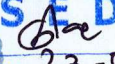

Respectfully forwarded is the memorandum of CENRO Taytay, Palawan dated February 20, 2023 relative the above subject.

As reported, a total of 80 kilometers distance were patrolled for the month of February 2023. In addition, there were twenty (20) threats recorded/observed. *(Please refer to the attached matrix of the report)*

For information and further instruction.

For the PENRO;

RONIE B. GANDEZA
DMO IV/ OIC Chief, TSD
In Charge, Office of the PENRO

MEMORANDUM

FOR : The Provincial Environment and Natural Resources Officer
Sta. Monica, Puerto Princesa City, Palawan

THRU : The Chief, Monitoring and Enforcement Section
Sta. Monica, Puerto Princesa City, Palawan

FROM : The Community Environment and Natural Resources Officer

SUBJECT : **SUBMISSION OF ACCOMPLISHMENT REPORT ON LAWIN
PATROLLING WITHIN THE AREA OF RESPONSIBILITY OF
CENRO-ROXAS, PALAWAN FOR THE MONTH OF
JANUARY, 2023**

Respectfully submitted is our report re: above subject.

Please be informed that the LAWIN patrollers of this office have accomplished a total of 99.60 kilometers distance patrolled which corresponds to 199.2% of the total target of 50 kilometers to be patrolled for this month base on the Work and Financial Plan (WRP) for C.Y. 2023.

Further informing, that there are thirty (30) threats recorded such as typhoon related threats, garbage, cutting of tree, charcoal, annual and perennial farming, hut or house and other infrastructure, mining and quarrying, slash and burn farming (kaingin). However most of these treats were recorded during Training on LAWIN Forest and Biodiversity Protection System for Municipal-Wide Watershed Conservation Law Enforcement Stakeholder in San Vicente Municipality facilitated by USAID Safe Water and the representatives of this served as resource speakers for training and learning purposes of the above activity.

Moreover, this office has already sent request to the LAWIN helpdesk to delete the said patrol data.

For record and consideration.

PABLO L. CRUZ

Summary Patrol Report

Region 04B - Roxas-Pal

Number of days analyzed: 30

1 Feb 2023 11:15 AM

This report presents the patrol performance and quality of the implementing unit during the above stated period of time (number of days). The report contains information on accomplishment rate, coverage and intensity of patrolling in different forest types on patrol distance covered per patroller. The information is meant to provide a basis for patrol planning for the next planning period and implementation of adaptive measures to enhance patrolling as necessary.

Overall accomplishment rate*

Level of Accomplishment

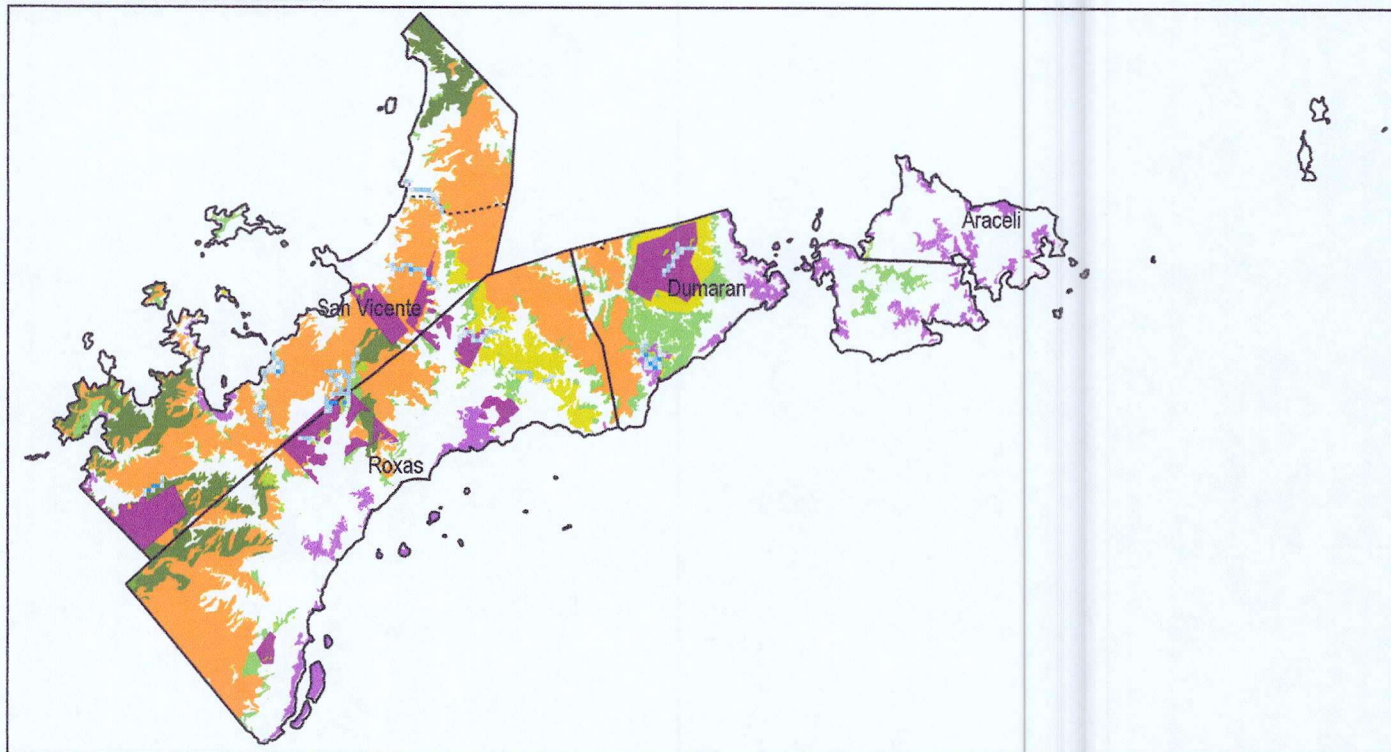

● Accomplishment
● Target

Accomplishment* for the period	Target* distance for the period
99.60	114.75

Accomplishment Rate:
86.8%

*Target is computed based on 10km target per team of 4 DENR patrollers per month

Patrol coverage and intensity

Summary Threat Report

Region 04B - Roxas-Pal

Number of days analyzed: 30

1 Feb 2023 11:15 AM

This report presents information for the implementing units of DENR to effectively plan and carry out actions for addressing observed threats to the forest.

Threats observed and level of response required

Threat	No. of Observations	Emergency - Immediate action required!	Level 1 - Action required within a week	Level 2 - Action required within a month
Annual and Perennial Farming	8	0	1	1
Typhoon-related Threats	7	0	0	0
Garbage	5	2	0	2
Charcoal	3	1	2	0
Cutting of Trees	2	1	0	1
Hut or House and Other Infrastructure	2	0	1	0
Landslide and Mudslide	1	0	0	0
Mining and Quarrying	1	0	0	0
Slash and Burn Farming (Kaingin)	1	0	1	0

Forest Protection Effectiveness Report

Region 04B - Roxas-Pal

Number of days analyzed: 30

1 Feb 2023 11:16 AM

This reports presents trends in observations of forest condition, regeneration, threats and indicator species. The combined presentation allows for an evaluation if protection efforts are effective, conservation targets are met and the forest achieves the desired future forest condition. Protection efforts are effective, when records of forest condition, regeneration and indicator species show an upward trend towards more observations more and denser regeneration, particularly in degraded forest areas. Increasing trends in indicator species suggest that the improved forest condition is providing a better habitat for forest dependent species. All trends presented are put in relation to the patrol effort to provide comparability. Forest cover data were derived from 2003 and 2010 NAMRIA land cover maps.

Trends of Observations per Patrol Kilometer in the Forest Conservation Area

Trend in Threats

A decreasing trend in threats in the forest conservation area mean effective forest protection; an increasing trend means the opposite.

Trend in Indicator Species

An increasing trend in indicator species in the forest conservation area means effective forest protection; a decreasing trend means the opposite.

Trends in Regeneration Density

An increasing trend in regeneration means effective forest protection; a decreasing trend means the opposite.

Trends of most common Threats
