MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA Region
1515 DENR By the Bay Building, Roxas Boulevard,
Barangay 668, Ermita, Manila

THRU : The OIC, ARD for Technical Services

FROM : The Provincial Environment and
Natural Resources Officer

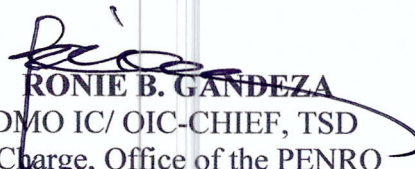

SUBJECT : SUBMISSION OF ACCOMPLISHMENT REPORT ON LAWIN
PATROLLING WITHIN THE AREA OF RESPONSIBILITY OF
CENRO ROXAS PALAWAN FOR THE PERIOD OF MARCH 16,
2023 TO APRIL 15, 2023

Respectfully forwarded is the memorandum of CENRO Roxas, Palawan dated April 17, 2023 relative the above subject.

As reported, a total of 32.84 kilometers distance were patrolled for the period of March 16, 2023 to April 15, 2023. In addition, there were ten (10) threats recorded/observed. *(Please refer to the attached matrix of the report)*

For information and further instruction.

MEMORANDUM

FOR : The Provincial Environment and Natural Resources Office
Sta. Monica, Puerto Princesa City, Palawan

THRU : The Provincial Environment and Natural Resources Office
Planning Officer

FROM : The Community Environment and Natural Resources Officer

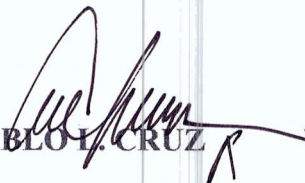

SUBJECT : **SUBMISSION OF ACCOMPLISHMENT REPORT ON LAWIN
PATROLLING WITHIN THE AREA OF RESPONSIBILITY OF
CENRO-ROXAS, PALAWAN FOR THE PERIOD OF MARCH 16, 2023
TO APRIL 15, 2023**

Respectfully submitted is our report re: above subject.

Please be informed that the LAWIN patrollers of this office have accomplished a total of 32.84 kilometers distance patrolled which corresponds to 65.68% of the total target of 50 kilometers to be patrolled from March 16 to April 15, 2023 base on the Work and Financial Plan (WRP) for C.Y. 2023.

Further informing, that there are 10 threats recorded such as cutting of trees, logging trail, slash and burn farming (Kaingain), annual and perennial farming that these threats were already addressed and/or no further action/s needed.

For record and consideration.

PABLO I. CRUZ

Summary Patrol Report

Region 04B - Roxas-Pal

Number of days analyzed: 30 17 Apr 2023 11:44 AM

This report presents the patrol performance and quality of the implementing unit during the above stated period of time (number of days). The report contains information on accomplishment rate, coverage and intensity of patrolling in different forest types on patrol distance covered per patroller. The information is meant to provide a basis for patrol planning for the next planning period and implementation of adaptive measures to enhance patrolling as necessary.

Overall accomplishment rate*

Level of Accomplishment

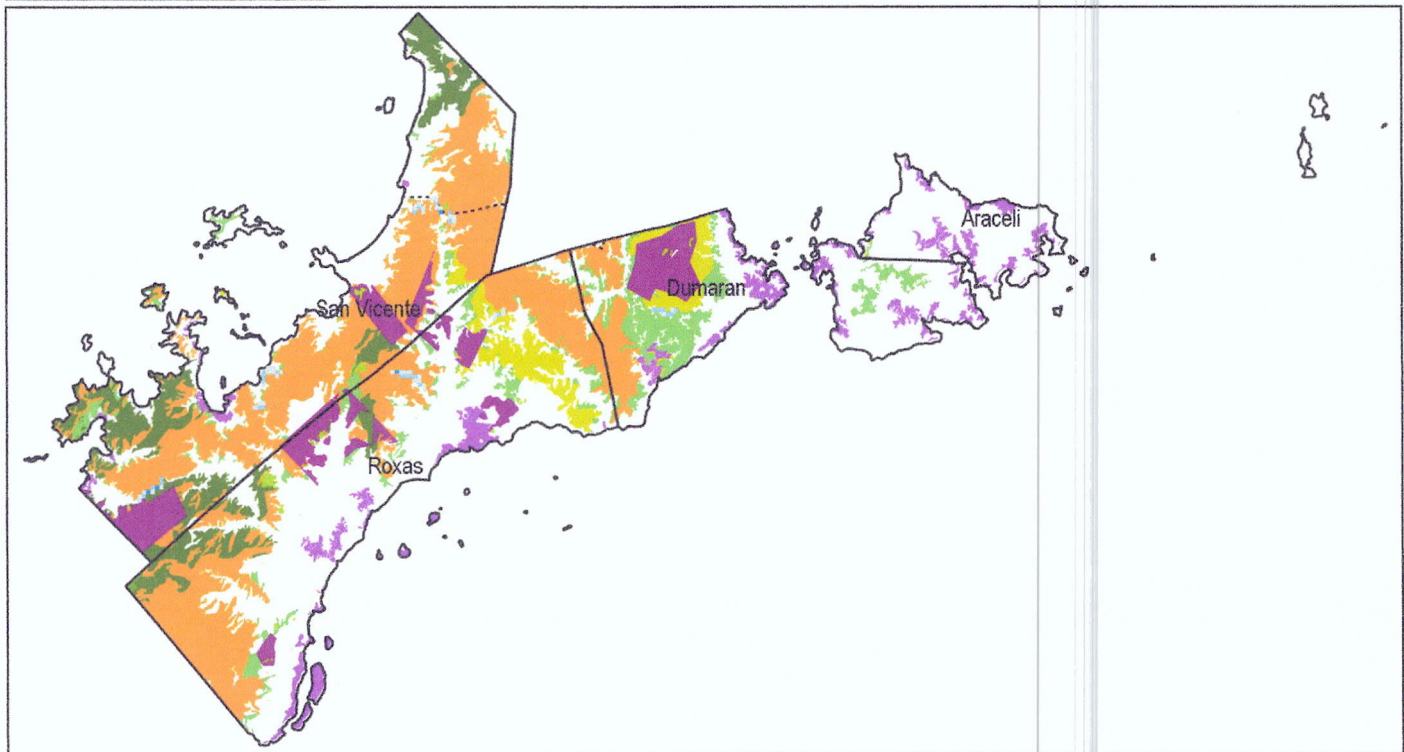

Accomplishment
Target

Accomplishment* for the period 32.84
Target* distance for the period 114.75

Accomplishment Rate:
28.62%

*Target is computed based on 10km target per team of 4 DENR patrollers per month

Patrol coverage and intensity

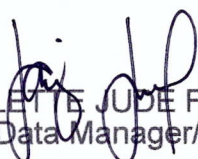

Republic of the Philippines
Department of Environment and Natural Resources
Lawin Forest and Biodiversity Protection System

Patrol distance covered by each forest ranger

Forest Ranger	Patrol Distance Accomplished
Marco Angelo Marquez	27.70
Lemuel Bacalla	21.18
Nolly Billones	20.56
Armando Gabayan	19.72
Ryan Giganto	19.42
Merma Saddin	14.94
Christopher Padrones	14.50
Alvin Maduro	14.28
Efren Esparagoza	13.12
James Tajon	13.12

Summary Threat Report

Region 04B - Roxas-Pal

Number of days analyzed: 30 17 Apr 2023 11:45 AM

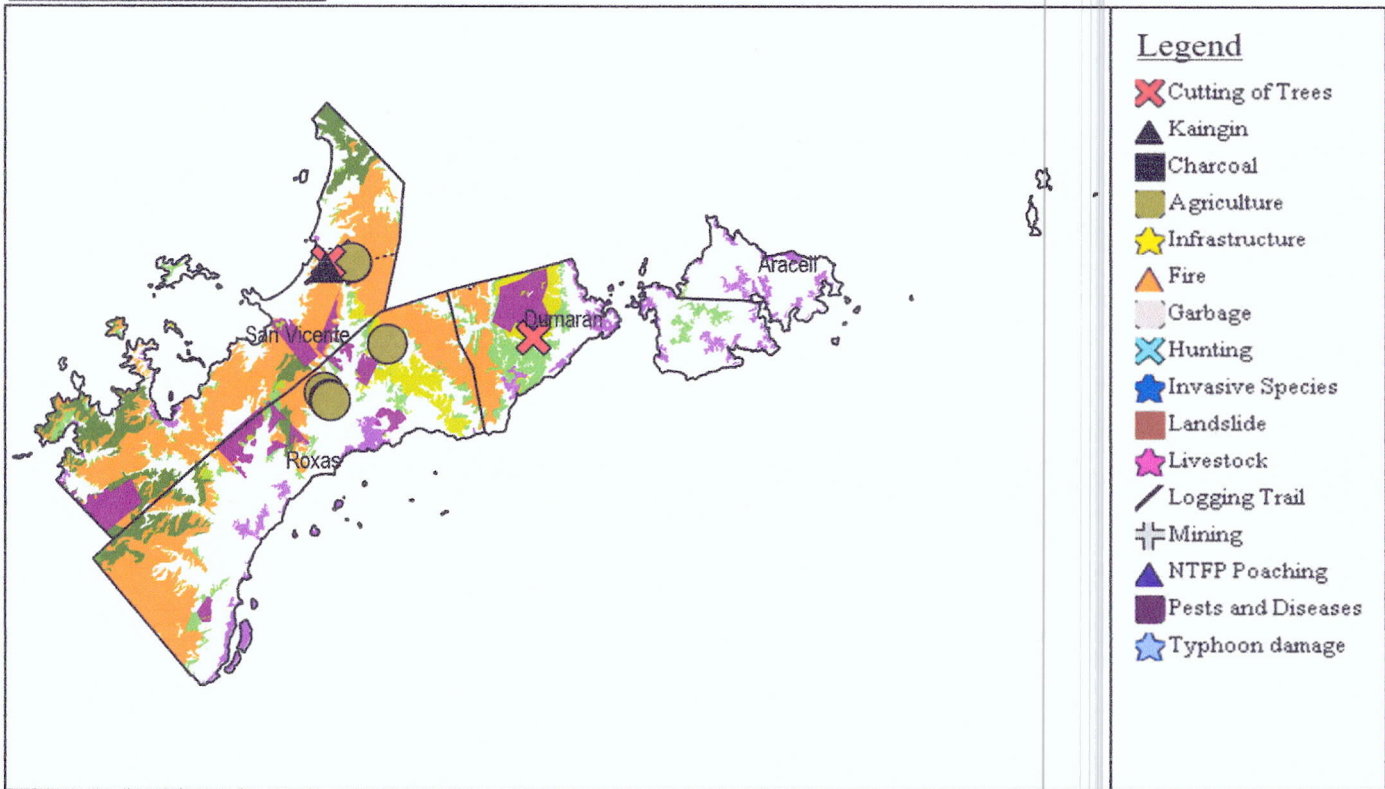

This report presents information for the implementing units of DENR to effectively plan and carry out actions for addressing observed threats to the forest.

Threats observed and level of response required

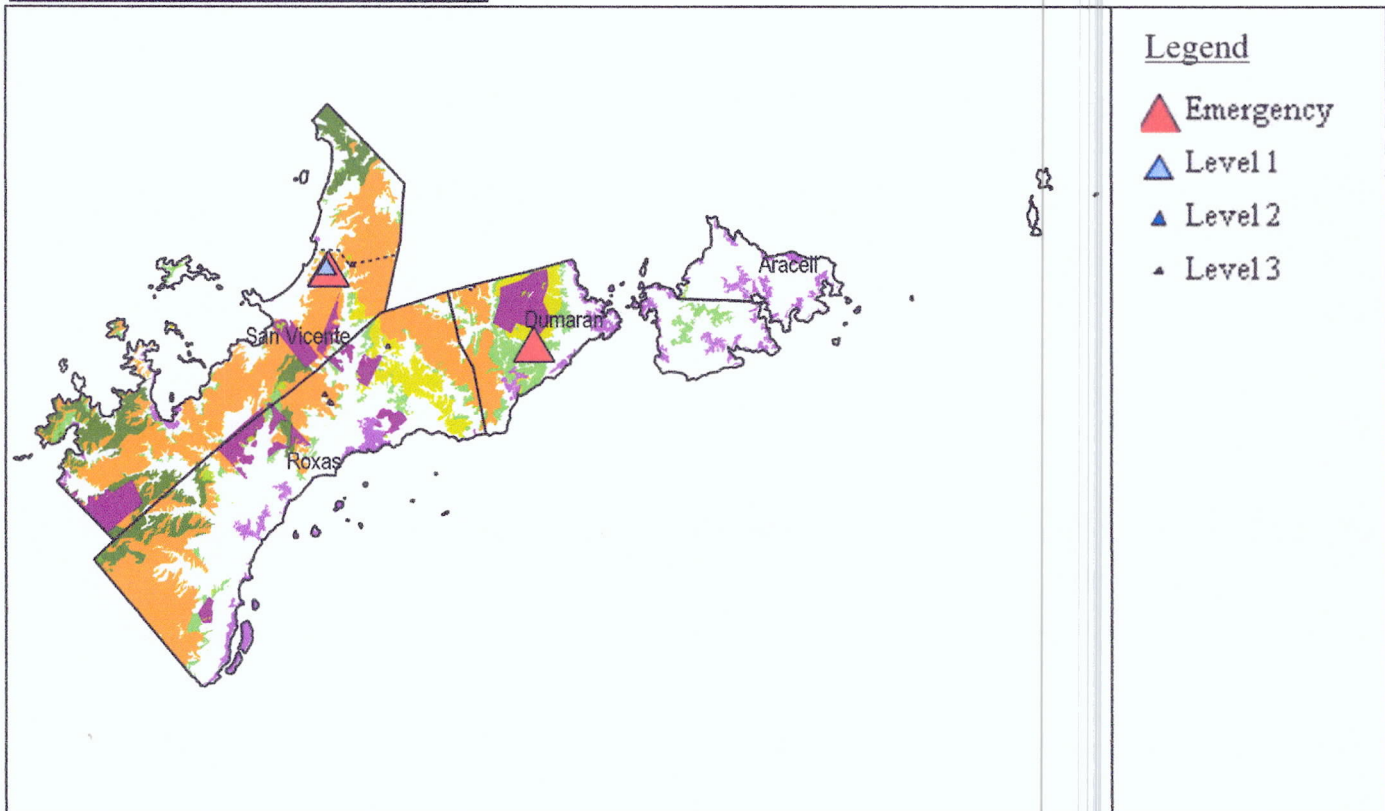

Threat	No. of Observations	Emergency - Immediate action required!	Level 1 - Action required within a week	Level 2 - Action required within a month
Annual and Perennial Farming	6	0	0	0
Cutting of Trees	2	2	0	0
Logging Trail	1	1	0	0
Slash and Burn Farming (Kaingin)	1	0	1	0

Location of observed threats

Locations and urgency of responses needed

Locations of actions taken to address threats

Actions taken to address observed threats during patrols

Forest Protection Effectiveness Report

Region 04B - Roxas-Pal

Number of days analyzed: 30 17 Apr 2023 11:46 AM

This reports presents trends in observations of forest condition, regeneration, threats and indicator species. The combined presentation allows for an evaluation if protection efforts are effective, conservation targets are met and the forest achieves the desired future forest condition. Protection efforts are effective, when records of forest condition, regeneration and indicator species show an upward trend towards more observations more and denser regeneration, particularly in degraded forest areas. Increasing trends in indicator species suggest that the improved forest condition is providing a better habitat for forest dependent species. All trends presented are put in relation to the patrol effort to provide comparability. Forest cover data were derived from 2003 and 2010 NAMRIA land cover maps.

Trends of Observations per Patrol Kilometer in the Forest Conservation Area

Trend in Threats

A decreasing trend in threats in the forest conservation area mean effective forest protection; an increasing trend means the opposite.

Trend in Indicator Species

An increasing trend in indicator species in the forest conservation area means effective forest protection; a decreasing trend means the opposite.

Trends in Regeneration Density

An increasing trend in regeneration means effective forest protection; a decreasing trend means the opposite.

Trends of most common Threats
