**MEMORANDUM**

**FOR** : The OIC, PENRO

**THRU** : The Chief, Technical Services Division

**FROM** : CDO II Gerry C. Mamigo

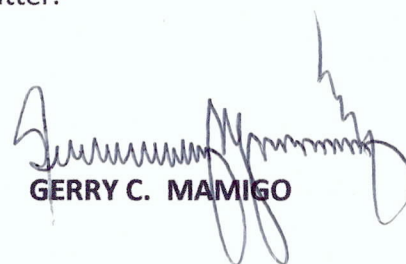

**SUBJECT** : **REPORT ON MONITOR LIZARD TURNED-OVER BY MARITIME POLICE**

Dated March 23, 2023 a Monitor Lizard having a total length of 95 cm. was turned over by Patrolman Christian Paul M. Paballa and Patrolman Mark Anthony G. Espinola, a Maritime Police assigned at Barangay San Antonio/Calapan Pier. Information gathered revealed that the said fauna species was turned-over by a resident of Barangay Balete, Calapan City, Oriental Mindoro. The aforesaid wildlife species was finally turned-over to Bulusan Zoo for custody and safekeeping.

Monitor Lizard adapt to many environments. They can be found in jungles and rain forest, but also in aquatic areas and hot and dry areas . Most monitor have long bodies, powerful legs, strong claws, and muscular tails and they prey ranges from insects to large mammals, depending upon the lizard' size.

Attached are the photo documentation regarding the matter.

For your information and record.
