MEMORANDUM

FOR : The OIC-PENR Officer

THRU : The Chief, Technical Services Division

FROM : Compliance Monitoring Team

SUBJECT : **COMPLIANCE MONITORING OF TENURE ON FOREST LAND-USE AGREEMENT FOR TOURISM (FLAgT) ISSUED TO GOLD BARREL SOCIAL CLUB RESORT CAPITAL INC., CY 2023 LOCATED IN ELEPHANT ISLAND, BARANGAY TUNGIB, BUENAVISTA, MARINDUQUE**

I. REFERENCE

In compliance with the approved Work and Financial Plan (WFP) for FY 2023 of PENRO Marinduque under Permit Issuance and Monitoring of Forest and Forest Resources Use, Item no. 2. Compliance Monitoring of Tenure or Permit Holders, please be informed that the personnel of this Office conducted compliance monitoring of Gold Barrel Social Club Resort Capital Incorporated, tenured holder of Forest Land-use Agreement for Tourism (FLAgT) located in Barangay Tungib, Buenavista, Marinduque on March 29, 2023.

II. BACKGROUND

The Gold Barrel Social Club Resort Capital, Inc. represented by Mr. Manuel A. Copon was a holder of Forest Land-Use Agreement for Tourism Purposes (FLAgT) for a period of twenty-five (25) years and renewable for the same period depends on the recommendation of the Performance Evaluation Team. Per record, FLAgT No. 01-2006 was issued on May 04, 2006 and will expire on April 30, 2031 covering an area of Ten point two (10.2) hectares of forest land located in Elephant Island, Barangay Tungib, classified as Timberland Block- C, Project No. 2 of Buenavista, Marinduque.

This Office sent a letter to the holder represented by Mr. Manuel A. Copon thru their authorized caretakers. In addition, the team had also coordinated with Mr. Renante Valencia, caretaker of the resort thru text message and phone call regarding the compliance monitoring activity. In addition, the team had also coordinated with the Barangay Local Government Unit of Tungib, Buenavista as usual courtesy call.

III. FINDINGS:

The caretaker of the FLAgT area are Mr. Rommel Rivero and Mr. Reynaldo Labosta, who asked us to log in the record book for record purposes. The rationale of the activity as well as the needed documents to be submitted pursuant to the terms and conditions of agreement as well as the new regulation pertaining to the payment of the Annual rental fee over the tenured area was discussed to the caretakers.

As observed from the previous years, the resort is still not operational, no guest nor any improvement to the establishment therein. The water supply on the island is still available which is coming from the mainland through an underwater cable. On the other hand, the electrical supply which is coming from the electrical towers established by the holder through the expired Special Land-Used Permit (SLUP) for Other Lawful Purposes – Electrical Tower Site No. DENR IV-B MIMAROPA-03212016 is already disconnected. The caretakers only used solar panels to generate electricity on the island.

During our monitoring, the Team found out that majority of the establishments were already dilapidated because of the typhoons that hit the province. In addition, some of the access roads are not

passable because of the overgrown plants. No maintenance of the area was being found at the time monitoring.

Naturally growing and planted trees were maintained and remained intact within the tenured area by the holder and the caretakers.

Even though the resort is not operationalized the FLAgT Holder represented by its caretaker regularly pays their annual fee. For FY 2022, the holder pays their annual rental fee last May 2022 amounting to Php 25,500.00 plus its monthly 8% surcharge.

Attached is the monitoring and evaluation form for reference.

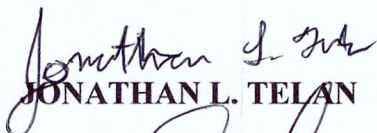

IV. REMARKS AND RECOMMENDATIONS:

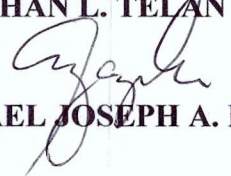

1. To require the holder to submit their annual report as stipulated in the agreement. The annual report should contain the current administration of the corporation and the plans for utilizing the area which should be in accordance with the approved CDMP.
2. Advise the caretakers to pay their Annual Rental fee for CY 2023
3. To conduct continuous annual monitoring of their compliance with the agreement.

V. DOCUMENT ATTACHED:

1. Monitoring and Evaluation Form;
2. Geotagged Photos; and
3. Digitized Map

For information, record and further instruction.
