SUBJECT : PERFORMANCE EVALUATION ON SOCIALIZED

(SIFMA) OF MR. HONORATO MARIANO AND DOMINADOR
GABOTERO LOCATED AT SO. MAOIT, BRGY. BARAKE,
ABORLAN, PALAWAN

Respectfully forwarded are the memoranda of Performance Evaluation Team of PENRO Palawan and CENRO Puerto Princesa dated April 12, 2023 in connection with the above subject.

Per memoranda, the monitoring team conducted the evaluation last March 14, 2023 on the seven (7) hectares of Socialized Industrial Forest Management Agreement (SIFMA) located at So. Maoit, Brgy. Barake, Aborlan, Palawan.

During the monitoring, the team found out that the holder isn't compliant to the contract item no. 25 since 2004.

V. RECOMMENDATIONS

- Non-renewal of the SIFMA Agreement;
- To encourage the current occupants to apply for a tenurial instrument based on their actual use; and
- CENRO PPC shall recommend other appropriate tenurial instruments suited for the present land use of the area as farmland. (There should be an application first before the Office can conduct a preliminary assessment and recommend a suitable tenure instrument. In addition to it, types of tenure instruments usually based on the proposed project of the proponent or applicant)

C. FINDINGS AND RECOMMENDATION

- The area, prior to the issuance of SIFMA, was previously under the Palawan Electric Company (PALECO) DENDRO Tree Plantation Project;
- That during its implementation, the occupants were convinced to join the project and were provided financial assistance to plant Ipil-Ipil trees;
- When PALECO encountered a problem securing a cutting permit for the Ipil-ipil, they were assisted to apply for individual SIFMA;
- As a result, on July 14, 1998, SIFMA No. 003-98 was issued to Honorato Mariano covering five (5) hectares;
- A certain Flaviano Sindac, Sr. facilitated the application and approval of the SIFMAs issued to 1. Flaviano Sindac, Jr., 2. Honorato Mariano, 3. Dominador Gabotero, and 4. Pernito Baude;
- After the SIFMA’s approval and the cutting permit for the planted Ipil-ipil trees was secured, harvesting of the planted trees took place;
- That because the proceeds from the harvested trees went to the payment of loans to PALECO/NEA, the project was no longer continued. No new plantation was established after the harvest;
- Presently, the holder is not residing at Brgy. Barake, Aborlan, Palawan, and cannot be contacted;
- There are actual claimants in the area that have already introduced some improvements such as planting agricultural crops like coconut, and fruit-bearing trees, nipa hut and backyard livestock which serves as their source of food and livelihood; and
- Records show that there is no submission of the Annual Report and payment of rentals;
- Non-renewal of the SIFM Agreement;
- To encourage the current occupants to apply for a tenurial instrument based on their actual use; and
- CENRO PPC to recommend other appropriate tenurial instrument suited for the present land use of the area as farmland. (There should be an application first before the Office can conduct a preliminary assessment and recommend a suitable tenure instrument. In addition to it, types of tenure instruments usually based on the proposed project of the proponent or applicant)
